Professional Summary

Results-driven **Full Stack Developer** with hands-on experience in designing, developing, and deploying scalable **web applications** and **RESTful APIs**. Proficient in building high-performance backend architectures, intuitive frontends, and integrating cloud-native services. Demonstrated expertise in **React.js, Node.js, Express.js, Next.js, MongoDB, and MySQL**. Adept at implementing **CI/CD pipelines**, optimizing system performance, and ensuring security and scalability. Passionate about **LLMs, AI**, and **cloud computing** to develop data-driven, innovative, and maintainable digital solutions.

Technical Skills

Frontend: React.js, Next.js, Vue.js, JavaScript (ES6+), Redux Toolkit, D3.js, Tailwind CSS, Bootstrap
Backend: Node.js, Express.js, MySQL, MongoDB, Socket.io, REST APIs, GraphQL, Microservices, Cron Jobs
Languages: JavaScript, Python, Java, SQL, TypeScript
Data & ML: NumPy, Pandas, Matplotlib, TensorFlow, Keras, Scikit-learn, SentenceTransformers, ChromaDB
DevOps & Tools: Git, GitHub, Docker, Jenkins, Postman, VS Code, Linux, Figma, JIRA, CI/CD, Cloud (AWS, GCP)

Experience

Globiva Services Pvt. Ltd.
Full Stack Developer

Feb 2025 – Present
Bengaluru, Karnataka

- Architected and implemented a scalable web framework enabling 15+ new feature deployments per quarter, increasing user engagement by 30%.
- Engineered and maintained key modules including **Incident Reporting, Asset Management, and Task Tracker**, enhancing workflow automation by 35%.
- Optimized backend performance by refactoring **RESTful APIs**, improving response time by 40%.
- Automated build and deployment workflows through **CI/CD pipelines**, reducing manual release errors by 30%.

Celebal Technologies.
Backend Developer Intern

Jun 2024– Aug 2024
Remote

- Engineered and deployed **Node.js/Express.js APIs** handling thousands of concurrent requests with high availability.
- Integrated **Socket.io** for real-time synchronization and JWT authentication for secure session management.
- Optimized SQL query performance and caching, cutting average response time by 30%.
- Configured **Jenkins + GitLab CI/CD pipelines**, accelerating deployment speed by 3x.

Projects

Email Management System for Customer Service | *Node.js, Microsoft Graph API, OAuth 2.0, Socket.io, Cron Jobs*

2025

- Developed an **email management system for Tata Motors** using Microsoft Graph APIs to automate email processing, inbox management, and customer replies.
- Implemented secure **OAuth 2.0 authentication and authorization** with Microsoft Identity Platform to ensure controlled access to mailbox resources.
- Enabled **real-time email updates** using Cron Jobs, Socket.io, and Microsoft Graph Subscriptions for seamless inbox synchronization.
- Integrated **attachment handling** (download, preview, upload) along with message filtering and search using Graph API queries to improve agent productivity.

Chatbot– LLM-Powered Q&A System — *GitHub | Python, Flask, SentenceTransformers, ChromaDB*

2025

- Architected a document-aware chatbot using **Retrieval-Augmented Generation (RAG)** pipelines for structured data queries.
- Improved semantic accuracy by 28% through **SentenceTransformers** and fuzzy logic matching.
- Orchestrated logging and analytics dashboards to monitor unanswered queries and optimize model accuracy.

Education

Kalinga Institute of Industrial Technology (KIIT)
Bachelor of Technology in Computer Science and Engineering

CGPA: 8.02/10

Aug 2021 – May 2025
Bhubaneswar, Odisha
