Professional Summary

Full Stack Developer with 1.5 year of professional experience designing, developing, and deploying scalable web applications, RESTful APIs, and microservices architectures. Expertise in JavaScript, TypeScript, React.js, Node.js, Express.js, Next.js, MongoDB, MySQL, PostgreSQL, and cloud technologies (AWS, GCP). Successfully optimized application performance by 40%, implemented CI/CD pipelines with Jenkins and GitLab, built real-time systems using Socket.io, and created AI-powered solutions with LLMs, RAG architecture, and NLP. Skilled in leveraging Docker, GraphQL, Redux, OAuth 2.0, and Agile methodologies to deliver innovative, secure, and maintainable solutions.

Technical Skills

Frontend: React.js, Next.js, Vue.js, JavaScript (ES6+), TypeScript, Redux Toolkit, Redux, D3.js, Tailwind CSS, Bootstrap, HTML5, CSS3

Backend: Node.js, Express.js, MySQL, MongoDB, PostgreSQL, Socket.io, REST APIs, GraphQL, Microservices, Cron Jobs, JWT

Languages: JavaScript, TypeScript, Python, Java, SQL

Data & ML: NumPy, Pandas, Matplotlib, TensorFlow, Keras, Scikit-learn, SentenceTransformers, ChromaDB, NLP, LLMs, RAG

DevOps & Tools: Git, GitHub, Docker, Jenkins, CI/CD, Postman, VS Code, Linux, Figma, JIRA, Agile, AWS, GCP, OAuth 2.0

Experience

Globiva Services Pvt. Ltd.

Feb 2025 – Present

Full Stack Developer

Bengaluru, Karnataka

- Led end-to-end migration of a **monolithic application to a 9-module Dockerized microservices system**, deploying each module on an isolated server – eliminating single points of failure and enabling independent deployability.
- Achieved **~45% faster DB response** by extracting query logic from controllers, applying **indexing and Redis caching**, and decoupling a centralized **auth DB** from module-specific databases.
- Engineered **Incident Reporting, Asset Management, Task Tracker** modules with **React.js, Redux Toolkit, MySQL**, enhancing workflow automation by 35%.
- Deployed **CI/CD pipelines using Jenkins and GitLab**, automating build and deployment workflows, reducing manual release errors by 30%.

Celebal Technologies

Jun 2024 – Aug 2024

Backend Developer Intern

Remote

- Built production-grade **Node.js/Express.js RESTful APIs** handling **1000+ concurrent requests** with **99.9% uptime**.
- Integrated **Socket.io** for real-time communication and **JWT authentication with OAuth 2.0** for secure session management.
- Enhanced **MySQL database performance** through **SQL query optimization, indexing, and Redis implementation**, reducing response time by 30%.
- Configured **Jenkins CI/CD pipelines integrated with GitLab** for automated testing, building, and deployment, accelerating delivery speed by 3x.

Projects

Email Management System for Customer Service | *Node.js, Express.js, Microsoft Graph API, OAuth 2.0, Socket.io* 2025

- Developed **email management system** for **Tata Motors** using **Node.js, Express.js, Microsoft Graph API** to automate email processing, handling **500+ emails daily**.
- Implemented **OAuth 2.0 authentication** with **Microsoft Identity Platform** ensuring controlled access with **role-based access control (RBAC)**.
- Designed **real-time email synchronization** using **Cron Jobs, Socket.io, Microsoft Graph Subscriptions**, reducing processing time by 60%.
- Integrated **attachment handling** (download, preview, upload) and **message filtering** using **Graph API queries**, improving agent productivity by 45%.

Chatbot – LLM-Powered Q&A System with RAG | *GitHub | Python, Flask, LLMs, SentenceTransformers, ChromaDB* 2025

- Architected chatbot using **Retrieval-Augmented Generation (RAG)** architecture with **Python, Flask, ChromaDB vector database** for context-aware Q&A.
- Improved **semantic search accuracy** by **28%** through **SentenceTransformers embeddings, fuzzy logic matching, cosine similarity** calculations.
- Created **logging and analytics dashboard** to track queries and optimize model accuracy with **NLP pipelines** for text preprocessing.

Education

Kalinga Institute of Industrial Technology (KIIT)

Aug 2021 – May 2025

Bachelor of Technology in Computer Science and Engineering — CGPA: 8.02/10

Bhubaneswar, Odisha
